

presented up till the present time. One is a request that the commissioners examine the Hell, which was recently invented by a local mechanic on the C.N.R. The smoke stack is now used on one of the Alberta Frigate company's engines, whose little cost is similar to the Edmonton coal.

The other matter to be brought up by the board is with reference to the express rates in the city. At the present time the express companies refuse to deliver south of the top of the hill which has south of McKay avenue and in other parts of the city. It is thought that the express companies can be compelled to deliver in all parts of the city.

Protests Against Express Charges. Several other protests with reference to express charges will come before the commissioners. They are as follows:

Complaint of H. H. Glass, alleging delay in delivery of express parcels by the Dominion Express Co., V. Vegreville.

Complaint of Dr. C. N. Cobble, Edmonton, alleging excessive express charges by express companies in the west.

Of Interest to the Farmers. There are a number of matters to be discussed which will be of special interest to the farmers of this part of the Province. They are as follows:

Resolution of members of East County branch of the Alberta Farmers' Association, that railways should be compelled to provide movable partitions in their cars in order to enable individual farmers to make small shipments of cattle or hogs, thus preserving the identity of the individual consignment.

Complaint of the Live Stock Commission at Edmonton, F. W. Stevens, and shippers of livestock, that where they are unable to procure stock cars for the movement of stock, box cars are supplied and planking has to be placed across the decks, which the company's agents refuse to supply and which entails an expense to the shippers of \$2 per car for planking.

Complaint of the Central Alberta Stock Growers' Association, alleging unreasonable delay on the part of the C.P.R. in regard to transportation of live stock and discrimination in the matter of personal transportation.

Complaint of the chairman of the Local Improvement District 27, S. 4, Alberta, against the plan of the proposed subway of the Grand Trunk Pacific Railway at the highway crossing in the northeast corner of section 10, township 23, range 24, west of the 4th meridian.

West End C.P.R. Entrance.

Both the city corporation and McDougall & Second will apply to the commissioners to cancel the plans, etc., filed by the C.P.R. for their proposed line from the terminus of the prospective high level bridge to the C.N.R. right of way north of McKinnon avenue. The grounds taken by McDougall & Second were set out at length in the Bulletin several weeks ago and the city will offer substantially the same reasons.

Coal Dealers' Complaints.

The coal dealers of the city will bring before the Commission a com-

plaint of several years standing and one regarding which they have been prosecuted for some time. When they secure cars for coal shipment, the railway companies compel them to furnish the doors or other lumber necessary to keep in the coal. This they claim, is an injustice, and some time ago they were promised consideration for the Railway Commission. Their complaint is as follows:

Complaint of J. D. Duncan and other coal dealers of Edmonton of unjust treatment by the Canadian Northern and Canadian Pacific Railways in compelling them to furnish doors or boards for the interior of doorways of cars supplied to them for coal shipments.

The Partridge Coal Company, whose mines are situated east of the city, are also complaining against the G.T.P. being permitted to continue their right of way through their property on river lot 32.

Want Fire Guard Order Changed.

The Canadian Pacific Railway Company will apply for an order under section 29, varying the order of the board dated July 4th, 1907, so as to provide that the fire guards, ordered to be constructed in the provinces of Alberta and Saskatchewan, shall be constructed in a new method. It is set out as follows:

That two strips of land not less than eight feet in width be ploughed on each side of the railway at a distance of not less than 300 feet from the centre line of the railway, and that a clear space of twenty feet be maintained between the said strips, which space shall be burned over and afterwards kept free of inflammable material.

The company will further apply for a direction from the commissioners that it shall not be required to establish and maintain such fire guards on such portions of its lines of railway in Alberta and Saskatchewan where the nature of the country renders it impossible or impracticable to do so, or where the doing so would involve serious loss and damage to property.

This application also came up for hearing at Regina on Thursday.

Two complaints of excessive freight rates will come up for hearing. One is made by J. Gainer & Co., Strathcona, with reference to charges on live stock from Wetsuk in Winnipeg, and the other is by Cyril Hind, Manitou, alleging excessive freight rates charged by the Canadian Pacific Railway Company on a horse shipped from St. John, N.B., to Strathcona. The complaint also alleges that the refund promised has not been made.

Want Highway Crossing.

The town of Vegreville is applying under section 29 of the Railway Act for an order granting leave to the municipality to construct and maintain a suitable level crossing over the tracks of the Canadian Northern Railway at Main street in that town.

Application of the Grand Trunk Pacific Railway Company, under section 130 of the Railway Act, for location east line of the railway, lot 33, range 23, west of the 4th meridian, through Edmonton

to a line between ranges 23-25 west of the 4th meridian. This matter is set down for the purpose of considering the complaint of Edwards & Mulder, respecting the Bill and resolution by the railway company of the place in connection with an order of the board on August 16th, 1907.

The Strathcona men will bring complaints before the board. One in connection with a wagon road across its property and the other in connection with loss of goods on the C.N.R.

Complaint of A. Lonsdale, Strathcona, that the Canadian Pacific has constructed a wagon road across his property, cutting his place in three and shutting him out from the water.

Complaint of Henry Harvie, Strathcona, alleging loss sustained on certain goods shipped from Edmonton to the station on the line of the Canadian Northern Railway, near Strathcona, and making application that a station agent be appointed.

Other Private Questions.

Stanley Ottaway, Clover Bar, is applying for permission to allow his cattle to run under the bridge of the G.T.P. Railway at the southwest corner of section 13, township 33, range 23, west of the 4th meridian, as an under farm crossing.

When Robert Harrie, Alberta, is complaining that the Grand Trunk Pacific Railway has constructed a right of way across his homestead, covering six to ten acres, and that a deer caught by his property and thrown away material over his land beyond its right of way.

THE CHARITY BALL.

The Charity Ball last night, under the auspices of the Ladies' Aid of the Strathcona Hospital, though not as largely attended as expected, proved to be a most enjoyable affair. Over one hundred couples were in attendance and the music, decoration of the hall and other features all contributed for the pleasure of those present.

Considerable disappointment was expressed that the hospital people were unable to secure a late street car kept a large number of Edmonton people from attending. Music was furnished by Richardson's orchestra, and about midnight refreshments were served. The proceeds will be used for the purchase of the Ladies' Hospital Aid fund.

LOCALS.

The Edmonton hockey team were passengers this morning from Strathcona on their trip to Nelson and other British Columbia cities, where they will play during the coming week.

OTTAWA USURY CASES.

Another Conviction Registered—Case Against MacKinnon Dismissed.

Ottawa, Ont., Feb. 12.—The mortgage-lending cases came up again today. Mr. Arabella Lalonde was found guilty of usury and will be sentenced next Wednesday. Neil H. MacKinnon was discharged when his case came on for hearing. The principal crown witness who had failed to put in an appearance when the case was up before, was arrested and today was fined \$5 for contempt of court. He was so confused that the prosecution could make nothing out of him. Another charge will probably be made against MacKinnon. The case against J. H. Dule was proceeded with and argument will be heard tomorrow. Mr. J. Hardy, who pleaded guilty last week, will be sentenced next Wednesday. A. L. Forbes is ill and his case was postponed. Walter Hatch, who could not be located here, has returned to the city and will be served with a summons.
